

Australian *Flexible Learning* Framework

Supporting Flexible Learning Opportunities

NurseryLive!

What is NurseryLive!?

NurseryLive! is an interactive 2D and 3D computer based simulation of a horticultural nursery. Learners interact with the software in order to manage particular aspects of the nursery. NurseryLive! enables learners to demonstrate their understanding in three horticultural competencies (maintaining nursery plants, controlling pests and diseases, and selecting chemicals and biological agents) in the Certificate of Horticulture, levels II and III.

How can it help you?

NurseryLive! provides an interactive, engaging and fun way to learn about the treatment of pests and diseases. Trainers can use the simulation in conjunction with the real nursery environment to provide examples, start discussions or create an exploratory learning experience.

The NurseryLive! resource is designed to easily fit into blended learning delivery models and can be used in conjunction with other online resources such as the Horticulture Toolbox. (The Toolbox can be viewed at flexiblelearning.net.au/toolbox)

Product testimonial

"NurseryLive! is a great concept. It provides the students with a fun way of learning about different plant problems and how to deal with them."

**Dave Hennessy, Horticulture Teacher,
Bremer Institute of TAFE, Qld**

What does it cost and where do I find further information?

NurseryLive! is FREE.

Visit flexiblelearning.net.au/nursery.htm to access and download the product.

To use NurseryLive! you will need to install the current version of Macromedia Shockwave Player, a multimedia player that is useable across all browsers and platforms. This player can be downloaded for free at www.macromedia.com
